Care and Education: Cornerstones of Sustainable and Just Economies

Nancy Folbre, nancy.folbre@gmail.com, https://blogs.umass.edu/folbre/
Gross Domestic Product:

a relatively small component of a larger economic system that includes unpaid work, unpriced assets, and essential ecological services.
Investments in Human Capabilities

Anne Geddes
Tax-sheltered individual retirement accounts (IRAs) are less important than collective investments in a sustainable economic future.
Care is Costly:

Mothers pay an unfair share of the total costs.
